DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 6-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Vignotto et al 6,190,102. Vignotto et al teaches an engaging portion on the larger diameter portion of the bolt which engages a flange portion and wherein the length of the engaging portion is shorter than the thickness of the flange portion in the range of 47-53% of the flange thickness and not exceeding 74%.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note, especially, the patents to Rosan and Eksergian.
